

Final Project Brief for Creative Programming

Cho-Tao Huang

Concept:

Build a page that let people can draw a picture and send it to me.
I'll collect the pictures and show them in a certain way.

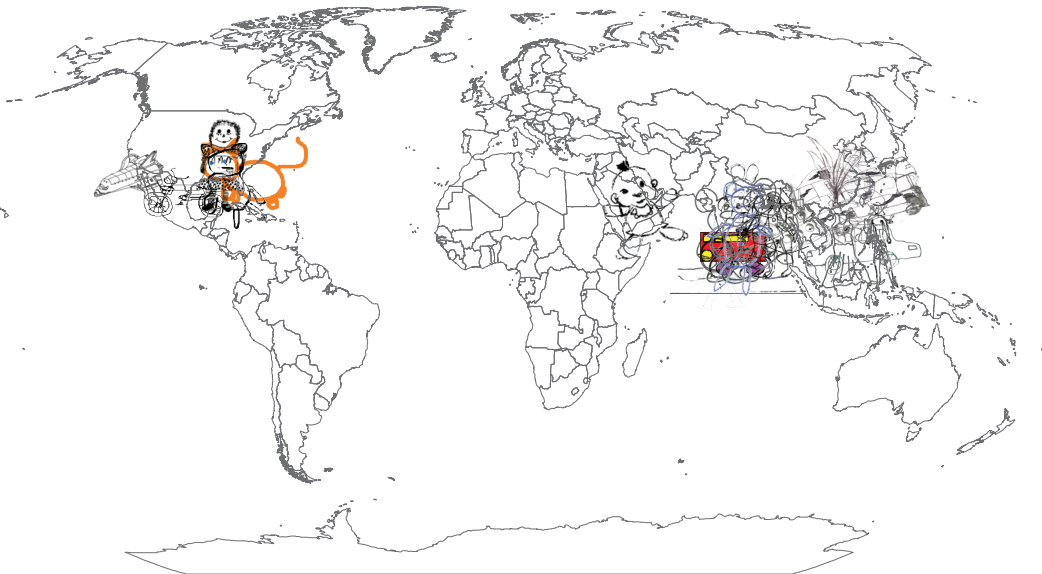

Draw your favorite toy in the childhood!

Pictures collected so far :

Pictures combine with world map :

Progress:

I stole a vector drawing page and mod it to the way I need. Now I'm trying to understand the code and build the mailing system to collect drawings more easily.
